## Your Coaches

CAMP3 was founded by NZ National Tech Team members Richie Johnston and Keith Stubbs. Between them they have well over 60 seasons of snowboard instructing, coaching and training experience.

The best in the business... CAMP3 is extremely lucky to be able to work with some of the top trainers in the World. The 2023 team features AASI National Team members Tony Macri and Chris Rogers.

Tony and Chris bring a mammoth amount of experience from their time teaching and training in the PSIA-AASI Rocky Mountain Division, nationwide across the USA, and around the World.

CAMP3 brings together some of the BEST Snowboard Trainers in the whole World, in one epic team, ready to share their wisdom and stoke with you!

## The Locations

### Cardrona Alpine Resort

Renowned for being the best park in the Southern Hemisphere, Cardrona offers the perfect training ground to push your park skills. But it's much more than a freestyle Mecca. Cardrona also offers rolling groomers, a bunch of new off-piste terrain, and fast laps to boot. This is the place to build those much needed 10,000 hours!

### Treble Cone

The legendary natural halfpipes and gullies are just scratching the surface of what TC has to offer. If the continuous, leg burning steeps aren't enough to keep you pumped, throw in a dozen side-hits per run and you'll be frothing harder a Barista at the World Coffee Champs. There's a reason why top Freeride Tour athletes choose to train at here!

### Wanaka, NZ

A ski town without the snow! Wanaka is located down in the valley, out of the snow line, meaning you can spend your down days riding bikes, going for hikes, seasoning the skate park, or just hanging by the beautiful lake and drinking great coffee.
